ENTIRELY NEW POLICY

How Canada is to be Punished For
Illegal Sealing Seizures.

Edmunds Proposes to Thrust a
Gag into the Mouths of Dem-
ocratic Senators, But He
Has Not Yet Succeeded.

Special to the Standard.
WASHINGTON, Aug. 11.—Edmunds came into the senate this afternoon just as it was about to adjourn with a proposition to shut off the debate on the tariff bill that looks uncommonly like a gag. It was his usual hour for being troublesome. After he has been doing a good deal of what is politely called "committee work," but which isn't, he took Morgan of Alabama off his feet to get a chance to thrust his gag into the mouths of the democratic senators. He withdrew it, however, and it will not come up until Wednesday. Then a discussion may arise upon the order and that may take up a fortnight. The tariff bill will be kept back, and the manufacturers who are waiting for it will be "ruined," if what they say is half true, and it probably is not. Windom does not care a great deal, because there is no report of the seizure of sealers in the northwestern seas. He intimated to-day that the interests of the Canadians in railway transportation in this country are much more important than in the fisheries on either coast, and it is apparent that it is to be the administration's policy to constrain Canada to come to time on the fisheries bill by bothering them about their railroad connections in the United States.

In the Senate.
WASHINGTON, Aug. 11.—In the senate to-day after routine business the tariff bill was taken up, the pending question being Plumb's amendment to reduce the additional duty on iron or steel hoops cut to lengths of baling purposes from 2-10 to 1-10 cent per pound. The amendment was rejected, three republicans, Ingalls, Pad- dock and Plumb voting in the affirmative.

McPherson moved an amendment by making the duty on iron or steel hoops 50 per cent ad valorem instead of 1-10 and 1-10 cents per pound. Sherman spoke of the little progress that was being made with the bill. Nearly three weeks, he said, had been spent upon it, and not one-fifth of it had been disposed of. Unless the senators on the other side be satisfied with one vote upon the question and would then go right along, the senate would have to continue in perpetual session. He did not wish to see any change in the rules of the senate if it could be avoided. If the other side would forego needless repetition of amendments and of yea and nay votes, the senators might soon see the daylight and soon be able to go to their respective homes. The bill had passed the house and had been considered by the committee of the senate, its general out line being on the scale of a protective tariff even of a high protective tariff. The republican senators did not deny that. It was a tariff that would protect American industries and build up nearly all the industries that could be employed in this country. It was a pretty high protective tariff and there were some points in it which he would be willing to yield. Still it had been reduced in several important particulars by the bill passed by the senate two years ago. It seemed the senate ought to make more progress with the bill.

Vest said the senator from Ohio had stated the bill was acceptable to his side of the chamber. The record did not show that to be a fact. On the other hand the most aggressive attacks that had been made on the bill had come from that side of the chamber and from a state that gave the largest majority to the republican party in the late election. The record would also show that a proportionally larger number of democratic senators responded, every time the role had been called. He gave notice that every item in the bill would be discussed if necessary, unless it was prevented by force, applied in some sort of fashion. The discussion having turned on the depreciation of farming property, a statement was read by Vest as to such depreciation in some of the best farming counties in Pennsylvania, and Cameron remarked that while the statement was correct, the tariff was not (in his opinion) the cause of it. Its cause was the demonization of silver in 1883. Ever since that time the price of land and farm products had decreased. Since passage of the silver bill prices had risen some 20 per cent.

Teller said that as to the question of haste in passing the bill he was not disposed that any of its opponents should be deprived of a fair and free discussion. He was willing to stay and discuss the tariff question or allow it to be discussed, but he believed the American people wanted to know whether the bill was a proper revision of the tariff. Finally a vote was reached on McPherson's amendment and it was rejected without revision.

The paragraph referring to tinned plate having been reached, Vest said it was a naked attempt by the Pittsburg manufacturers to create another monopoly in their own interest against the consumers in the United States. He moved to reduce the rate of 2-10 cents per pound to 1 cent, the present duty. Edmunds asked leave to offer an order to be printed and to go over. It is to the effect that during consideration of the tariff bill no senator shall speak more than once and not longer than five minutes on or in respect of any one item, or any one amendment, without leave of the senate. Such leave is to be granted or denied without debate and without any other motion or proceeding except such as relates to providing a quorum. No general motion in relation to it other than to take it up shall be in order. All appeals are to be determined at once and without debate.

Finally Edmunds withdrew the order, saying he would present it again to-morrow. A conference was ordered on the Indian appropriation bill, and Dawes, Plumb and Carl were appointed conferees. Allison, from the committee on appropriations, reported with the amendments of the house bill for additional clerical force in the pension office and gave notice that he would, sometime to-morrow ask the senate to consider it, and the senate adjourned.

Loving Brothers.
HOUSTON, Tex., Aug. 11.—At Pattison to-day Charles and Daniel Ellison, brothers, killed each other during a quarrel.

PRACTICALLY ENDED.

The Strike on the New York Central Proving a Failure.

NEW YORK, Aug. 11.—All through the night and early this morning it looked as though the strike on the New York Central was slowly petering out. Nevertheless both parties, as far as words went at all events, were as stubborn as ever. The Buffalo express or newspaper train moved out on time at 5 a. m., and before 7 two trains had been sent out over the Harlem division. Soon after the announcement was made that all trains would be run to-day. The police arrangements remain the same as yesterday, except the men were told not to leave their posts for even an instant. Vice President Webb contradicted the statement made last night that the firemen had struck. He declared that all passenger trains are running fully manned; everything he declared is in fine shape all along the road except at Syracuse, where proper protection was not accorded. He had telegraphed Governor Hill for troops. He added that arrangements were being perfected for moving freight to-day.

The first freight which moved since the strike left the yards for Albany at 9 a. m. No opposition was made by the strikers as a heavy guard of police was on hand. Sixty-fifth street yard, from which the first shipment of freight was made, is the most important in the city. The freight train passed Spuyden Duyvel at 10:30 and everything to that point was all right. At 10 o'clock everything was in good shape. At the Grand Central depot the police arrangements are the same as yesterday. There is no excitement, around the depot except that large numbers are applying for work at the temporary employment bureau.

Vice-President Webb said regarding the statement in the morning papers that the firemen had been called out, that the order calling them out had been issued a few days ago. But both firemen and engineers had disregarded the order. I have every reason to believe, Webb added, that neither the engineers nor firemen will go out. The number of trains to leave the Grand Central depot to-day is 120. The customary number leaving on week days is 138.

The trains which have been suspended are local trains and of little importance. So far to-day no incoming freight has arrived at any of the yards.

The West Shore is handling the New York Central incoming freight. Every train which left the depot this morning was promptly on time, and the schedule of time will be observed all day.

ALBANY, Aug. 11.—Adjutant General Porter has received word that everything is quiet at DeWitt. Passengers trains are moving.

BUFFALO, Aug. 11.—The situation on the Central road is unchanged. Strikers are few in number and quiet. Trains from the east are coming in several hours late.

SHARON, Pa. Aug. 11.—General Master Workman Powderly says the New York Central strike will probably be considered at a meeting of the general executive board in Detroit next Wednesday. He believes, if necessary, the brotherhood of locomotive engineers and firemen will join the strike.

During this afternoon and evening the Grand Central depot was as quiet as though no strike had occurred. Trains were continually arriving and leaving and the entire business of the depot had resumed its normal condition. Vice President Webb said at 9 o'clock this evening—and at midnight the situation is the same—that the strike so far as the New York Central is concerned was at an end. The entire passenger and freight service will be resumed to-morrow, and all trains will leave on schedule time. All freight yards will be open for the reception of freight.

The Chicago mail, due at 6:45 this morning, reached here at 2:30 this afternoon. It also contained the Chicago mails that were due to arrive Sunday evening. The train from Chicago, due at 11:30 this morning, and which contains the western mails and those transatlantic connections, had not reached here up to 5 o'clock. All other mails are more or less late.

SORROW OF PARNELITES

Over the Death of the Noble Exile, John Boyle O'Reilly.
LONDON, Aug. 11.—The Parnelite members of parliament held a special meeting this evening to record their sorrow at the death of John Boyle O'Reilly. They regretted that he was not spared to return from his paternal exile on the day of his country's freedom.

ON THE DIAMOND.

League Games.

At Toledo—Toledo 6, Athletics 5.
At St. Louis—St. Louis 15, Brooklyn 9.

Afghanistan's Ruler Cheered.
CABUL, Aug. 11.—The ameer of Afghanistan arrived here to-day. He was given an enthusiastic reception. He was visited by a deputation consisting of the principal chief, citizens and military officers, who presented him with 60,000 rupees to be devoted to charity.

Peru's New Government.
LIMA, Aug. 11.—The cabinet of President Reimudez is announced as follows: Premier and minister of public works, Senor Valcassell; foreign affairs, Senor Elmore; commerce, Senor Ruintina; justice, Senor Cfaurez; war, Senor Suarez.

The Situation at Jersey City.
JERSEY CITY, N. J., Aug. 11.—There was no change to-day in the situation at any of the railroads in this city. There was not the least sign of trouble. The men employed in the yards said a strike was not probable.

Joy Over President Celman's Fall.
BUENOS AYRES, Aug. 11.—Sixty thousand persons attended the mass meetings held here to rejoice over the fall of President Celman. General Mitre was cheered as the future candidate for the presidency.

CARDINAL NEWMAN DEAD

The Aged Theologian Passes Quietly Away in London.

His Life Has Been Contemporaneous With That of the Century—
Ill Only Since Saturday.

LONDON, Aug. 11.—Cardinal Newman is dead. The cardinal became ill Saturday, when he had a severe chill. He passed into a comatose condition Sunday and remained unconscious until he died.

John Henry Newman was born in 1801 and his life has therefore been contemporaneous with that of the nineteenth century, of which indeed he was one of the master intellects. As a scholar and theologian he has had few superiors in the Roman Catholic church. His was the highest order of mind, combining extraordinary judgment and sagacity. He was in touch with humanity, and his contributions to literature both on theological and other themes show not only acute reasoning, but massive intelligence, broad sympathies and an eager desire to elevate and ameliorate mankind. Cardinal Newman has left the impress of his personality upon contemporaneous religious thought. His death will be deplored wherever piety and wisdom receive the appreciation their due.

A CLEVER SWINDLER.

Who Swindled Some Good Colored People Out of Several Thousands.

DENVER, Aug. 11.—E. F. G. Hall representing himself as contractor of the Nicaragua canal travelling west for his health, is wanted here for passing forged drafts on New York banks for nearly five thousand dollars. The same man visited Greenwood Springs in July and swindled banks and merchants out of \$3,500 by the same means. His plan of operation was to gain the confidence of a prominent citizen who would introduce him to the banks and merchants. He then would make a deposit at the bank and issue drafts which would be promptly paid. He would then deposit a draft for a large amount drawn by a Kansas bank upon a bank in New York, get a part payment on the draft in advance, draw out all his deposits and with considerable jewelry paid for with forged paper leave the town before his crookedness was discovered.

FIREMEN STRIKE.

Rumors of An Important Move to Be Made on Other Lines.

NEW YORK, Aug. 11.—A Times Albany special says: Early this morning (Monday) all locomotive firemen, members of the brotherhood of locomotive firemen on the Hudson River division of the New York Central & Hudson River railroad, joined the striking Knights of Labor. This defection of men will, it is feared, completely block travel over the New York Central between this city and Albany. It is rumored that it has been definitely decided to strike on the Lake Shore, Michigan Central and Michigan Southern to-day. It is determined to tie up the main line of the Central all the way from New York to Chicago.

FIERCE STORMS.

A Water Spout in the Mountains of Colorado Does Much Damage.

DENVER, Aug. 11.—A Boulder, Colo., special says: The bursting of a water spout in the mountains above this town last night caused the water in the river to rise to a fearful height in a very few minutes. The cabin of W. J. King and wife, which was built on the banks of the river near Siloma, was caught in the flood and both were drowned. The railroad track was washed away and no trains will be able to run for three days. Boulders weighing two tons were washed down the side of the mountains. Near Corraland yesterday evening a hail storm ruined the entire fruit, wheat and corn crop territory ten miles long and two wide.

Denver was visited this afternoon by a severe rain storm, accompanied by fearful lightning, during which several people were rendered insensible, but none fatally.

TAILORS ON STRIKE.

Knights of the Goose in Spokane Kick for Higher Wages.

SPOKANE FALLS, July 11.—All journeyman tailors in this city are out on strike. Saturday evening the tailors adopted a new scale of prices and upon its presentation to the employing tailors this afternoon all refused to sign, whereupon all the journeymen walked out. The strikers claim the new schedule of prices is as low as that prevailing in the Sound cities and lower than the schedule in force in Butte and Helena.

Liberty of Catholics in Britain.
LONDON, Aug. 11.—In the commons to-day, Ferguson, under foreign secretary, in response to a question, stated that the Pope in receiving the Duke of Norfolk as a private envoy in 1887, expressed great satisfaction because of the liberty enjoyed by the Catholic religion throughout the British empire. The fact that such liberty existed, he said, ought to incite Catholics to be loyal to the queen.

Judge Lynch Presided.

ARKANSAS CITY, Aug. 11.—Last night the sheriff captured William Beaver, a negro, who was wanted for assault upon a young white lady. As the officer was taking the prisoner to jail he was met by a mob who took Beaver and hung him to a tree.

Close of the Medical Congress.

BERLIN, Aug. 11.—The medical exhibition in connection with the international medical congress closed to-day. Professor Virchow made an address closing the exhibition, and upon its conclusion called for cheers for the emperor, which were readily given.

Be As Merciful As Possible.

PARIS, Aug. 11.—The conference of American consuls general, held in this city, concluded to-day. The conference adopted several recommendations, among which is one favoring leniency in enforcing the provisions of the McKinley tariff bill.

SIXTY-FOUR MILLIONS.

That is the Estimate of This Country's Population.

WASHINGTON, Aug. 11.—The House to-day proceeded to the consideration of the conference report on the sundry civil appropriation bill. After debate, in the course of which Dockery predicted a deficiency of between 20,000,000 and 28,000,000 in the revenues of the government during the current fiscal year the conference report was agreed to and a further conference ordered upon the amendments still in dispute.

The population of Kansas City, Kas., as announced by the census bureau to-day is 38,170. The same place in 1880 contained 28,380, an increase in 10 years of 28,882 or 38.37 per cent.

Superintendent Porter expects the work of counting the population of the country to be completed before the end of the present month, and congress, if it so desires, can proceed to pass an apportionment bill and so determine how many members shall constitute the next house. The population of the country is estimated at 64,000,000.

Charges and specifications in the cases of Colonel Kandy of the Eighth infantry and General Brooke have been submitted by General Scheffeld to the secretary of war for his action.

First Assistant Postmaster General Clarkson to-day tendered to the president his resignation, to take effect September 1 next.

WYOMING POLITICIANS.

Republican and Democratic Candidates On the State Ticket.

CHEYENNE, Wyo., Aug. 11.—The first state convention of democrats and republicans was held in this city to-day. In the democratic convention George W. Baxter of Cheyenne was nominated by acclamation for governor. The remainder of the ticket consists of John S. Harper, Crook county, secretary of state; J. C. Miller of Carbon county, treasurer; George A. Campbell of Albany county, auditor; A. Quinn of Venita county, superintendent of public instruction; George F. B. Clark of Sheridan county, for congress; Samuel T. Corn of Venita county for justice of the supreme court.

The republican ticket is headed by Francis E. Warren, of Cheyenne, the present governor of the territory, Otto Gramin, of Laramie, treasurer; C. W. Burdick, of Carbon county, auditor; Dr. A. W. Barber, of Converse county, secretary of state; Farwell, of Johnston county, superintendent of public instruction; Clarence D. Clark of Venita, for congress;man; Willis Vandevanter, of Laramie county, the present chief justice; H. V. S. Groesbeck of Albany county, and A. B. Conway, of Sweet Water county, for justices of the supreme court.

ENGLAND AND FRANCE.

How They Have Partioned Off the Lands of Africa.

LONDON, Aug. 11.—In the house of lords to-day Salisbury stated the English agreement with France maintained the rights and privileges of the missionaries in Madagascar and incurred the freedom of religious teaching under the modern doctrine of "Hinterland" France claimed the countries south of Algeria and Tunis, and on the same principal the English Niger company could claim the territories behind its present sphere of operations. It was obviously desirable to draw the line separating the English and French spheres of activity. The line agreed upon was a large part of the western shore of Lake Tchad to the Niger company, including the empire of Sokadi. The country northwest of Lake Tchad would be considered under French influence. Notes were exchanged by the two governments which recognized the fact that the agreement would not affect the rights of the porte over the regions south of Tripoli.

TERRIFIC STORMS.

Connecticut Experiences a Storm That Does Great Damage.

NEW HAVEN, Conn., July 11.—The most terrific thunder storm that visited this section in 20 years swept up Long Island Sound yesterday afternoon and created havoc all along the shore. At Hible Island trees were uprooted and the wind-ows of the cottages blown in. Hail stones as large as walnuts fell half an hour.

The steamer Margaret with three hundred excursionists on board was caught in the storm. A panic ensued, but the steamer weathered the storm safely.

From all along the east shore as far as New London reports of a terrific storm are received. Trees were prostrated and windows in dwelling houses blown in. Crops, especially corn and tobacco, are ruined.

VETERANS OF THE WAR.

Distinguished Soldiers Arriving in Boston Daily.
BOSTON, Aug. 11.—The great arrival of the day was the Nebraska train of fifteen coaches, bringing Department Commander Clarkson in the state department headquarters car. Interest centered in this thin-visaged veteran surrounded by congratulating comrades, survivors of the four prisons, Andersonville, Libby, Savannah and Millen. Chairman Goodale of the executive committee received a telegram from Secretary Tracy at Bar Harbor, Maine, this afternoon stating the dispatch will arrive Tuesday morning to bring the vice-president, General Sherman and himself.

GENERAL ALGER'S BOOM.

He Finds It in a Healthy State in Massachusetts.

SALEM, Mass., Aug. 11.—General Alger received a welcome at Salem this afternoon at the hands of Phil Sheridan post and citizens generally. The mayor welcomed Alger and staff and the Vermont veterans. General Alger responded briefly. With General Alger were Mrs. Alger, Mrs. Logan, Mrs. Senator Stocksbury, Miss Alger and Miss Platt.

All Trains Resumed.

NEW YORK, Aug. 11.—Officers of the New York Central & Hudson River railroad announced that there is now no interruption to passenger traffic on the lines of the New York Central. All through passenger trains are run on the regular schedule time.

Thirteen People Drowned.

LONDON, Aug. 11.—The British steamer Halcyon collided with the British steamer Rheinbold to-day near Vigo, Spain. The Halcyon sank. Thirteen persons were drowned.

FOUL PLAY SUSPECTED

The Body Found Under Suspicious Circumstances.

Indian Murderers Closely Pursued In the Flathead-Missoula's Doings—Gossip About Matters in that City.

Special to the Standard.

MISSOULA, July 11.—News reached the city yesterday that the body of W. H. Edwards of Grantsdale, who was missed on Saturday, had been found in the Bitter Root river about two hundred feet below the Cohn bridge between Grantsdale and Riverside. At first it was thought he had committed suicide or had been thrown from his horse, but now it looks as though there had been foul play. The water directly under the bridge where his hat was found is not deep enough to float a body and it must have been taken to the hole where it was found. In the back of the head was a deep gash apparently made by a blunt instrument and his neck was broken. There is as yet however, no certainty about the cause of the death. He was 54 years old and leaves a young wife but no children. He was highly respected by all who knew him.

The report which was current to-day that Ansley, the Indian murderer, had been captured by half breeds but had escaped, is confirmed at the sheriff's office to-night. The report comes from the Flathead country that La Lasse has been surrounded and is sure to be captured.

About 11 o'clock last night Deputy Sheriff Houston arrested Jim Woodcock and Henry Sholes at Bennett's slaughter house west of the city on a warrant sworn out by J. B. Spooner charging them with stealing and killing cattle. The warrant also called for the arrest of Bud Tillman, but he could not be found. The men are said to have been engaged in slaughtering some cattle belonging to J. B. Spooner, Bell Bros., D. J. Heyforn and Michael Flynn, and had already killed one animal belonging to each of the first two named. This morning the two men who were arrested were arraigned before Justice Logan, pleaded not guilty and were released on \$500 bonds each to appear for hearing Saturday forenoon. Deputy Sheriff Abernethy has gone up the Bitter Root after Tillman. Mr. Musgrave, of the firm of Murray & Musgrave, attorneys for the defendants, says that the two men who were arrested are merely butchers whose business it is to kill all cattle driven into the corral. Tillman attends to driving them and is supposed to know the brands and look out for them. Woodcock assisted him with the driving yesterday, but it was his business to look after the brands. Mr. Musgrave thinks that if any of them are guilty of grand larceny, Tillman is the one.

Haw. Houston, son of the sheriff, fell from a horse which he was riding last night and sustained a very severe bruise on his left cheek.

V. H. Chambers of Anaconda had a very serious attack of lamboago this morning at the Florence hotel. Dr. Hanson was summoned and this afternoon reports that his patient has recovered.

Judge Logan held police court to-day in the absence of Judge Evans at Deer Lodge. He fined two drunks the usual \$1.25 and one of the women from the "row" \$10 and costs for using profane and indecent language on the street when she was drunk.

Henry Bernard returned yesterday from San Francisco, whither he had been called by the serious illness of his mother. She was much improved when he came away.

W. B. Sparkman and J. A. Brent of Butte are at the Florence.

J. D. Mulloy has added a large supply of school books to his store, preparatory to the opening of the public schools. He proposes to do a wholesale as well as retail business in them.

Some time ago the matter of placing a night watchman at the jail was brought before the county commissioners, but it was not then deemed necessary to go to that expense. Now, however, the jail contains about forty men, many of them hard criminals, and a watchman is quite necessary.

The following notices of location were filed to-day: Coupon, in Lake Mining district, on Diamond John hill, on the west side of Falls creek, by James Hanley; Diamond John, in Lake Mining district, on Diamond John hill, by James Hanley and B. F. Harward; Skalkaho, in unorganized district, on the north side of Spring gulch, joining the town of Carter, by J. M. Hargrave and E. W. Park.

Council met to-night, as a number of people have complained that George Feile, when chief of police, collected road taxes from them without giving them receipts, it was decided to investigate the matter next week as witnesses were not ready to-night. Although the investigation was set for to-night, Feile left town to-day. Alderman Osborne was appointed street commissioner and ex-officio road tax collector and was instructed to find all possible evidence in the matter of the Feile investigation. The city marshal was instructed to assist in the collection of taxes and the investigation. The street commissioner was ordered to build a bridge over the Spruce street ditch at Stephens street.

On Thursday a boy named I. H. Fawcett bought a ticket for some point up the valley. Conductor Hampson took the boy for a spotter and got one Blodgett of Victor to bring in a bogus dispatch ordering him to arrest and search Fawcett. He represented himself to be an officer and searched the boy in the car. J. D. Campbell, a Northern Pacific detective, was on the train and saw the whole performance and immediately reported to Superintendent Ramsey. The Northern Pacific officials decided to give Fawcett \$100 to prevent his prosecuting the company. Then in his name they lodged complaint against Hampson and Blodgett. But finding that the penalty for such a crime is three years in the penitentiary without the option of a fine they succeeded in getting the case quashed, as they did not want to punish the offenders so severely.

The Leper Student.

NEW YORK, Aug. 11.—Mamuel Garutta, a young Yucatan student who is afflicted with the leprosy, was Saturday taken to his home in his native country by his parents. Garutta is 20 years old and was a student at Flushing. Recently he came to spend vacation with his parents. July 17 he was declared a leper and taken to North Brother's Island.
